PROKOTE® 6x1-I

MULTI-PURPOSE • 'HEAVY DUTY' PROTECTIVE LUBRICANT

INDUSTRIAL LINE

MEMBER OF

MULTI-PURPOSE 'HEAVY DUTY' PROTECTIVE LUBRICANT

Why do we call it "6x1"? Easy... **PROKOTE 6x1-I** is a unique 'heavy-duty' multi-purpose lube treatment that provides six (6) very important functions during one single application: it Cleans... it Lubricates... it Penetrates... it Protects... it is an Anti-Corrosive... and it is an Anti-Friction!

Remember: "Any application... anywhere... is not too hard or too intricate for this product".

- 1. CLEANS:** It cleans and removes moisture reducing sludge and gum formations.
- 2. LUBRICATES:** As an extremely non-tacky and non-gumming low surface tension fluid, it atomizes perfectly to envelop and lubricate moving parts within contact.
- 3. PENETRATES:** With an exceptional capillary penetrating action it tends to flow to all areas, particularly toward the heat of high friction surfaces.
- 4. PROTECTS:** Its high wetting power and non-evaporation characteristics protect your valuable parts, reducing maintenance requirements.
- 5. ANTI-CORROSIVE:** By neutralizing moisture, corrosion is controlled. This property guarantees the sure release of extremely rusted parts.
- 6. ANTI-FRICTION:** Contains a high percentage of an anti-friction agent that is designed to bond to metal surfaces providing a micro-thin coating to minimize friction.

SIX BENEFITS... ONE SINGLE APPLICATION!

PROKOTE 6x1-I:

- Works as an effective penetrating oil and bench lubricant
- Is safe; it will not harm the finest painted surface or the most delicate or intricate piece of machinery
- Is not a solvent with no offensive odor
- Will not evaporate nor reduce in strength while in storage
- Does not void warranties
- Contains no sulfur, alcohol, lead, graphite, plastic particles, PTFE resins, molybdenum or other suspended solids

Use PROKOTE 6x1-I on:

- Industrial and mechanical tools and parts
- A variety of household items, including rubber surfaces
- Component surfaces of vehicle parts, engines, transmissions, gearboxes, differentials, bearings, chains, machine and air tools, compressors, pumps and sumps, marine and mining equipment
- ... many other industrial uses

ONE SINGLE APPLICATION OF

PROKOTE® 6x1-I

INDUSTRIAL LINE

PROVIDES
ALL THESE BENEFITS

1. CLEANS
2. LUBRICATES
3. PENETRATES
4. PROTECTS
5. ANTI-CORROSIVE
6. ANTI-FRICTION

PROKOTE® ...
MUCH MORE
PROTECTION!
